

# Framery Four™

The smart and soundproof office meeting pod  
shaping the workspace of tomorrow

**framery**

Framery Four is a smart office meeting pod for up to 4 people. This multifunctional soundproof meeting space is engineered for face-to-face meetings and hybrid work from the office. Fine-tuned acoustics and soundproofing provides privacy for discussions and virtual calls. Framery Four's adaptive ventilation and automated lighting let you focus on what really matters and have a successful workday.

## Framery Four / Product highlights

### Workdays that flow with ease

Framery Four has been purposefully designed to make your workdays flow better. Find and book the pod in advance or on-the-fly from the Framery app. Or step inside and the pod automatically creates a reservation for you. Extend your reservation directly from the pod's touchscreen, or adjust your booking through the app.

### Privacy you can trust

The fine-tuned acoustic structure provides A-Class soundproofing that allows the pod to be placed next to workstations without causing noise distractions to the user or to those outside of the pod. And echo-free interior acoustics make the pod a private, comfortable place for work and video calls.

### Airflow that keeps you fresh

The pod recognizes when it's occupied, senses the temperature and humidity of the surroundings, and triggers adjustments to the airflow accordingly. Enhanced ventilation fully refreshes the air every minute, and ventilation can be easily adjusted through the pod's touchscreen.

### Lighting that makes you feel good

Multiple automated light sources adapt to your needs, with preset lighting options to choose between work or video modes. Video-optimized lighting helps you shine on video calls. Adjustments can be made quickly and easily through the touchscreen display.

## Framery Four / Tech features

### 1. A-CLASS SOUNDPROOFING

Guaranteed privacy with fine-tuned Class A speech level reduction of 30dB – and the industry's top ISO 23351-1 rating for office phone booths.

### 2. FRAMERY OFFICE SOUND MASKING SYSTEM™

The embedded system is based on patent-pending technology that reduces noise distractions and protects speech privacy in office environments by adding a subtle, unobtrusive background sound outside of the pod. This ambient background noise, similar to air flow, is specifically designed to blend in with the office's noise atmosphere – making sounds less intelligible and therefore less distracting.

### 3. ADAPTIVE VENTILATION

Proprietary design enables unparalleled ventilation with maximum airflow of 100 l/s – surpassing industry standards around the world

### 4. TEMPERATURE & HUMIDITY SENSORS

Sensors inside the pod recognize the temperature and humidity of the office environment, and automatically optimize the airflow accordingly.

### 5. AUTOMATIC LIGHTING MODES

Multiple adjustable 4000K LED light sources allow you to seamlessly switch between video or work modes – or make manual adjustments for personalized illumination.

### 6. 8-INCH TOUCHSCREEN

An intuitive, 8-inch high-resolution touchscreen makes it easy to control pod settings, adjust lighting and airflow, and extend calendar reservations effortlessly.

### 7. AUTOMATIC UPGRADES

A built-in 4G connection enables automatic over-the-air software updates – initiated instantly and silently in the background.

### 8. MMWAVE RADAR PRESENCE DETECTION

Millimeter-wave radar sensors immediately detect when someone enters or leaves the pod, allowing lighting and ventilation to adjust accordingly.

Occupancy data is gathered and displayed through Framery Connect to provide information about when the pod is being used the most.

### 9. FRAMERY CONNECT™

Gain insights from occupancy data, initiate advanced bookability functionalities, and connect your Framery Four to the entire office to get valuable usage data needed to improve the layout and efficiency of your workplace.

---

## Framery Four / Design details

Framery Four easily fits any office thanks to its efficient size and sleek design. The interior is luxurious in space, easily fitting two comfortable sofas and lots of table space. The low threshold enables easy access. Choose from a variety of colors and interior options to make the pod fit your environment seamlessly. Framery Four is designed sustainable and built to last.

Framery Four's powder-coated exterior panels are made from deepdrawn and bended steel. Matt black structures made from aluminum create the framing, and sound-control laminated glass finish the structural support.

The pod chassis is made of a light steel structure. Replaceable interior paneling are made from PET sound-absorbing material. Anti-static, stain resistant low-loop pile carpeting covers the flooring.

The exterior occupancy lights show at a glance whether the pod is available or already taken.

The custom-designed table comfortably accommodates laptops, and built-in power outlets and optional coat hooks support all your office accessories. An optional adjustable monitor arm can be inserted directly into the table leg to support a 27" screen.

The sofas of Framery Four are specially designed to fit four people comfortably. Custom cushions are available for additional comfort and support.

An optional gather zone outside of Framery Four creates an additional meeting area, featuring a convenient add-on rail where a whiteboard or additional display can be attached.

## MATERIALS AND FINISHES

**EXTERIOR PANELS** made from steel feature a powder-coated matt finish. The lightweight panels are joined together seamlessly, with elegant curves that create a timeless design.

**INTERIOR PANELS** made from high-quality and recycled polyester have a vibrant and dynamic look thanks to the mix of the two-colored fabric.

**SEATING MATERIALS** are a blend of superior New Zealand wool and polyamid that form a soft and rich texture. The extremely durable fabrics are both dirt and water repellent.

**CARPET FLOORING** is anti-static, stain resistant, and durable, giving the pod an overall soft look and finish.

## Framery workplace technology / Set your office up for success

Framery's workplace technology suite streamlines workdays, elevates productivity, and enhances the entire workplace experience. Access real-time occupancy data, make data-driven decisions, book meeting spaces easily, and boost focus, privacy, and productivity throughout the office. Set up your workplace for the people who use it – making it easier than ever to get work done. And you can enjoy these benefits without any deployment costs.

### Framery Connect™

Use occupancy data to improve workspace efficiency. See which spaces are utilized, need attention, or go unused. Make data-driven decisions with real-time insights to optimize your office layout.

### Framery Connect Sensor™

This compact sensor enhances Framery Connect by gathering usage data from any space in your workplace. Easily attach it to meeting rooms or collaborative areas to get a complete overview of how each space is utilized, with simple wireless connectivity for seamless data collection.

### Framery App™

Manage your day with the Framery app – the easiest way to book pods and meeting spaces. Check availability instantly, save favorite spaces, and book on the go. Manage your workday all from your phone.

### Framery Room Display™

The Framery room display is a booking system for all work and meeting spaces, showing real-time availability of the desired space and enabling instant on-site bookings for smooth scheduling. Integrated with work calendars, the Framery App™, and smart pods, it delivers a cohesive, synchronized office booking experience.

### Framery Office Sound Masking System™

Improve workplace acoustics with Framery's sound masking system. It reduces noise distractions and protects speech privacy by adding subtle background sound, blending naturally with office noise.

### Unparalleled support

Get instant support from a Framery specialist for any issues that may arise with your smart pods or other products.

### Automatic updates

Instantly receive software updates through your smart pod's 4G connection to enable developments and services into the future.

### Privacy assured

No identifiable user data is collected – only workspace occupancy information is tracked.

# Framery smart pods / Environmental data sheet

Framery's new smart pods set the standard in sustainability – with durability that is measured in decades, light-weight product structures, use of truly recyclable materials, and modularity that allows the life cycle of the products to be extended indefinitely. Framery participates in the Science Based Targets initiative, and has set emission reduction targets aligned with the goal of limiting global warming to 1.5°C compared to pre-industrial levels.

## Optimal material use

Framery has achieved a 23% material reduction with its new line of products – which equals over 1 million kg of raw material annually – while increasing their level of performance compared to previous models. The carbon footprint in the manufacturing stage of the new products is 16% smaller on average. A change from plywood to steel as the main construction material also allows Framery to continue reducing its environmental impact and strive towards a 50% reduction in product CO2 emissions by 2028.

## Production and waste management

All our pods are manufactured in Tampere, Finland using zero-emission electricity. Our factory logistics are operated on biogas and renewable diesel. The material efficiency rate of our production was 94.9% in 2022. Virtually no waste goes to landfill.

## Environmental impact

We have conducted life cycle assessment studies for our products to measure their environmental

impacts. Alongside their carbon footprint, we also study other impacts such as resource depletion and water scarcity. The results are verified by an independent third party, and then published and registered as an EPD to provide stakeholders with reliable information on our products' environmental performance in a transparent way.

## Product performance

The modular design of our pods facilitates a long product lifetime, and our customers typically use them for many years. The same pod can be used by one customer after another, enabling multiple life cycles and saving valuable resources. Thanks to their modular design, our pods are easy to disassemble, refurbish if needed, and reassemble at a new location. Our products are GREENGUARD Gold certified, and highly maintainable with easily available spare parts.

## Transportation

Logistical hubs in Singapore and the USA reduces air freight, and allows us

to load our shipping containers more tightly. The products are made-to-order, and their modularity helps us achieve this with minimal impact.

## Materials

To increase circularity, the pods contain mono-materials rather than composites for 100% recyclability. They also contain more recycled materials, including 20% recycled steel and aluminum, 29% recycled glass, and fabric featuring 80% recycled plastic. Framery will also be among the select few companies in the world pioneering the use of SSAB fossil-free steel in our products, starting as soon as the material becomes available in 2026.

## Certificates and studies available

- Life Cycle Assessment (LCA)
- Environmental Product Declarations (EPD)
- Health Product Declarations (HPD) & Declare labels

## SAFETY

Fire safety	No fire hazardous materials are used in Framery pods. The fire safety of all surface materials, upholstery and acoustics materials of our products are tested and classified by either national or international standards. Framery provides additional safety measurements to adhere to local regulatory requirements
Seismic safety	A seismic anchoring kit for a pod is available for the seismic regions. The kit consists of brackets that further reinforce the pod structure to withstand heavy seismic forces

## POWER AND SPACE REQUIREMENTS

### Power

#### FRAMERY FOUR ESSENTIALS OUTLETS

4 x under-table power outlets, 2 x USB-C PD charge ports (65 W). Optional: 2 x under-table power outlets (included with the monitor arm). Optional in-table outlets (max. 2): 0-1 x HDMI port, 0-2 x LAN ports (with cables)

**FRAMERY FOUR LITE OUTLETS** 4 x under-table power outlets. Optional: 2 x under-table power outlets (included with the monitor arm). Optional in-table outlets (max 4): 0-2 x USB-C PD charge ports (65 W), 0-1 x HDMI port, 0-4 x LAN ports (with cables)

**FRAMERY FOUR BASE OUTLETS** 4 x power outlets (2 x power outlets on each side of the pod). Optional outlets (max 4): 0-2 x USB-C PD charge ports (65 W), 0-4 x LAN ports (with cables)

The location of power outlets may vary based on country regulations.

**POWER CONSUMPTION** Default settings 52W. Highest settings 115W. Standby mode 20W. **INPUT** 100-240 VAC, 10 A\*, 50-60 Hz. **OUTPUT AC (POWER OUTLET)** 100-240 VAC (8 A max) 50-60 Hz. **OUTPUT USB-C PD CHARGE PORT** 65W

\*In India power outlet type 16A is used

### Space requirements

**DOOR OPENING RATIO** 180°

### Door handedness

Left-handed by default (can also be installed right-handed)

### Operating space

From back to front (pod depth + doorway) 225.8 cm / 88.9 in. Room height requirement 238 cm / 93.7 in

### Installation space

Installation requires 50 cm / 19.7 in of free space around the pod. Room height requirement 238 cm / 93.7 in.

### Movability

Relocate the pod without the need for disassembly by adding casters with a movability kit. Compatible with Framery Four and Six. The kit is reusable. Multiple pods can be moved with one kit

## SHIPPING CRATE DIMENSIONS

### Crate 1

**SIZE** 226 x 75 x 138 cm / 90 x 29.5 x 54.3 in (l, w, h). **WEIGHT** 278 kg / 612.9 lb

### Crate 2

**SIZE** 224 x 74 x 114 cm / 88.2 x 29.1 x 44.9 in (l, w, h). **WEIGHT** 395 kg / 870.8 lb

Crate 1 is stacked on top of Crate 2
